Chennai.

Sir,

Re : Official Letter – Intimation of Grant.
Ref : Patent Application number : 161/MAS/2002.

I have filed the patent related to MOBILE PHONE WITH A PLURALITY OF SIMCARDS ALLOCATED TO DIFFERENT COMMUNICATION NETWORKS

in Indian Patent office on 4 March 2002 with patent application number 161/MAS/2002 . Indian patent office has been officially issued the "Intimation of Grant Thereof" for patent application number 161/MAS/2002 on 19 December 2006 (Copy is attached herewith). But I have not receive the Grant of Patent Certificate from Indian Patent Office. I am expecting the Grant of Patent Certificate from Indian patent office in coming months.

I have approached to issue the License offer (Indian patent application number : 161/MAS/2002) to the leading mobile phone manufacturing companies like Nokia, Sonyericsson for the last many months. Meanwhile the Mobile phone manufacturing and assembling companies Viz. Shensun, Fujiyama, John, CKing and so on in China, Hongkong have released the mobile product " Dual simcard mobile phone " from January 2007. I am afraid to see the Mobile phone assembling companies have released the mobile product "Dual simcard mobile phone" based on the technology claimed in my patent (161/MAS/2002). The mobile phone assembling companies in china and hongkong have purchased the mobile phone components and accessories from Japan, USA, Sweden and then assembled the components in their factory in China and Hongkong. The mobile phone companies have released the product "Dual simcard mobile phone" without filing the patent. The mobile phone "Dual simcard mobile phone" have export from Chian, Hingkong to various countries including INDIA. Many distributors and dealers in India have import the product from China, Hongkong and sale the product in India from January 2007. The distributors and dealers have directly sale the product in Online shopping like Rediff shopping (<http://shopping.rediff.com>), Ebay (www.ebay.in) and so on (Copy of mobile product is sale in Online shopping is attached herewith). The distributors and dealers have indirectly sale the product to many mobile shops in India.

I am willing to inform you that the mobile companies have released the product " Dual simcard mobile phone " without PATENT.

I am expecting the Official letter from Indian patent office to mention the Intimation of Grant with Abstract and Claims.

Yours very truly,
s.ramkumar.
